on

“Pre-marital Counseling on Infertility and Sexual Problems”

Speaker

Dr. Jayesh Patel

IVF and Fetal Medicine Specialist, Parnu

Woman's Superspecialities, Surat

Abstract

Infertility problem is becoming much common in present day situation because of changed life style, dietary practices and other environmental factors. Females, particularly of child bearing age should be aware of the causes, prevention and the diagnostic techniques available for this problem. Further, there are several techniques available like In-vitro fertilization and others that can help in conception to the aspiring couples. The expert lecture by Dr. Jayesh Patel help us to brief about the same as well as recent diagnostic methods, methods available for monitoring healthy pregnancy and related concepts as well as issues.
